

## TRIPPOINT IN THE EDUCATION SECTOR

With some of Australia's leading institutions as customers, Tripoint Corporation understands the needs of the education sector. Tripoint has more than seven years experience in end to end student lifecycle management covering the design, build and integration of core student-facing and back end ERP systems.

In addition to providing institutions with valuable information about how to best manage their various administrative needs, Tripoint welcomes the opportunity to further engage with higher education institutions in order to fully understand their technology strategy requirements.

### TRIPPOINT EDUCATION CLIENTS

#### The University of Newcastle

*The University of Newcastle is a dynamic, research intensive University ranked in Australia's top 10. It has a student population of over 26,000, including over 3,500 international students from more than 80 countries studying both on and off-shore in business, engineering, medicine, nursing, science, teaching and technology.*

The University of Newcastle selected Tripoint as its implementation partner for the upgrade of its PeopleSoft Student Administration system 'NUSTAR' from Version 7.6 to Campus Solutions 8.9.

Tripoint has worked closely with the University in all aspects of the upgrade, from the application through to the infrastructure layer, actively promoting an open and integrated project team.

Tripoint has applied to the project its in-depth skills and expertise around the PeopleSoft Campus Solutions application and the underlying technology and architecture. Working as part of the University's own project team, Tripoint has coached and advised to gain the necessary skills to support the application moving forward.

#### The University of New South Wales

*The University of New South Wales (UNSW) is one of the leading teaching and research Universities in Australia – renowned for the quality of its graduates and its commitment to new and creative approaches to education and research. It offers over 900 undergraduate and postgraduate programs with close to 40,000 students including more than 7,000 international students, from around 177 different countries.*

Since 1999, Tripoint has worked with UNSW on the implementation and continued development of student, HR and financial systems and their associated infrastructure.

Tripoint worked closely with the University to develop the web-based J2EE self-service function over the underlying PeopleSoft layer including enrolment basket, online application and acceptance of offer, the interface for which is now expanding into staff self-service.

Currently, Tripoint is engaged with the UNSW architecture group to define future systems and the upgrade of myUNSW self-service framework and continues to provide ongoing strategic operational services and technical consultancy.

**ABC Learning Centres**

*ABC Learning is the world's largest listed childcare provider. In addition to its Australian and New Zealand business, the company has numerous childcare centres in the United States and the UK. The Brisbane-based company is on a rapid growth trajectory with fourfold growth in the past five years.*

In early 2007 Tripoint was engaged to provide strategic consulting, leading to the development of business requirements for a platform to support ABC Learning's global administrative and operational needs. Tripoint commenced the engagement with an audit of the childcare provider's business requirements, including HR and finance, which led to the development of specifications for a global technology footprint, including an application roadmap matched to ABC Learning's anticipated future growth.

ABC Learning has since signed a project contract with Tripoint for the program management and implementation of a broad suite of PeopleSoft Enterprise applications and Oracle technology including through ABC Learning's Australian and New Zealand business, with the expectation this will then be extended to other regions.
